## The City Beautiful in America

Remarkable Race for Supremacy in Municipal Attractiveness.

known is now being run by the cities in the United States, a race the running of which will involve the expenditure of untold sums of money and consume years of time, Instead of minutes. But at the finish the cities will be transformed almost beyond recognition, and they will be so much better and they will be combined sums and they will be combined for the canals and the river."

Individualized beauty."

New York is the only city in the United States, and \$5,006,000 more of the world, whose official machinery includes a body just like the improvement the world, whose official machinery includes a body just like the improvement.

"Our aim is a plan which any logical machinery includes a body just like the improvement."

"Our aim is a plan which will involve the world, whose official machinery includes a body just like the improvement.

"Our aim is a plan which will include all traction systems, surface, elevated, and underground; terminals of the great through railways and their lines of progress through the city, which will adapt itself to the best utilization of the ment.

The commission has sixteen members, are individualized beauty."

New York is the only city in the United States, and \$5,006,000 more of the water of from sixty to 120 of the Mississippi's banks at a height cludes a body just like the improvement the world, whose official machinery includes a body just like the improvement the world whose official machinery includes a body just like the improvement the world whose official machinery includes a body just like the improvement the world whose official machinery includes a body just like the improvement the world whose official machinery includes a body just like the improvement the world whose official machinery includes a body just like the improvement the world whose offic more desirable places to live in that no lake, the canals, and the river. one will begrudge either the time or

Humanly speaking, there will never be

the richest city; but in scores of other cities similar plans and quite as ambitious in proportion to wealth and population are being pushed forward. There is hardly a city in the land, indeed, that in proportion to wealth and population are being pushed forward. There is hardly a city in the land, indeed, that has not already got the transformation process well under way. Baltimore and process well under way. Baltimore and control of the Field Museum, the Crear Library, and control of the Field Museum, the Crear Library and control of the Field Museum, the Crear Library and control of the Field Museum, the Crear Library and Buffalo, Chicago, Detroft, Duluth, and and eventually a new and enlarged Art Indianapolis, Louisville, Nashville, New Institute in Grant Park, and a lake front the Metropolitan Museum of Art; to re-Orleans, and Omaha, both Portlands, St. Louis, and St. Paul; and many others have half made themselves over in the

In some of these cities, especially those been nothing less than startling. Broad, year, and the women's clubs purpose twell-paved and shaded streets have taken lend their aid unstintedly. the place of dirt roads; bare tracts of land have been transformed into beautiful parks, inadequate and unsightly wooden town halls and courthouses have been

every one of the European centers has think the original plan of New York a "includes experts in various lines. Each been improving upon itself for centuries, hopeless one." there are hardly half a dozen cities in the

be proud of that such men as Daniel H. Burnham, who has just taken up the plan to make Chicago beautiful as well as busy, a pleasant as well as a profitwho has wrought out the stupendous lined in the New York City improvement and scores of other citizens are willing to give their services free to the cause of mproving the cities.

That they are able to do so is proof that the American purse string opens more easily than any other in the cause of art: were it not so, such men as Burnham and Warren could not offer their services freely as they do.

## Burnham, the City Beautifier.

The world awoke to a realization of Mr. World's Columbian Exhibition at Chicago in 1893

Notwithstanding his aversion to fees to make so great a number of American best part of the town may be reached. cities beautiful. Since the World's Fair, at the request of the late Senator Mc-
